

COOK COUNTY HEALTH

JOHN JAY SHANNON, MD
CHIEF EXECUTIVE OFFICER
COOK COUNTY HEALTH
REPORT TO THE BOARD OF DIRECTORS
JULY 26, 2019

Employee Recognition

Chiquita Hudson, a registered nurse in our medical intensive care unit, was recently recognized for her extraordinary patient care with the DAISY award. The DAISY award is an international program that rewards and celebrates the extraordinary compassionate and skillful care given by nurses every day. A patient who had an excellent patient experience at Cook County Health nominated Chiquita. The patient felt like family and stated the only pain about the experience was saying goodbye.

Activities and Announcements

- On July 16, Cook County Board President Toni Preckwinkle and Cook County Health (CCH) broke ground on a new \$12 million state-of-the-art health center in Chicago's Belmont-Cragin neighborhood located at 5501 West Fullerton Avenue. The new health center will replace CCH's Logan Square Health Center at 2840 West Fullerton once construction is complete in 2020, tripling the size to a 25,000-square-foot footprint. With 30 exam rooms, the Hanson Park Health Center will expand high quality, integrated health care to thousands of Cook County residents. Expanded pediatric and adult primary care services, women's health, dental care, as well as specialty services like cardiology and endocrinology will be provided. The Women, Infants and Children (WIC) food assistance program will also be on-site. By improving access to care and focusing on community wellness, CCH can ultimately improve the health of all Cook Health patients, reduce unnecessary health care costs, and decrease emergency room visits and inpatient stays. CCH officials estimate that the site will accommodate more than 50,000 visits annually.

IMPACT 2020 Objectives 1.2, 2.1

- Several members of the CCH care coordination and psychology teams conducted a study that has been recently published by *Psychiatric Services*. The report, *Improving the Evolution of Adult Mental Disorders in the Criminal Justice System with Computerized Adaptive Testing*, sought to develop a mental health screening and assessment tool for use in the justice-involved population. The study identified modifications that can be made to a previously-validated tool "to measure the severity of depression, anxiety, mania and/or hypomania, suicidality and substance use disorder in an English- and Spanish- speaking criminal justice population." The study is attached.

IMPACT 2020 Objectives 1.2, 1.6, 7.1

Food As Medicine Update

- Through July 1, **CCH's Fresh Truck partnership** with the Greater Chicago Food Depository (GCFD) has resulted in 195 visits to 13 CCH health centers – Arlington Heights, Austin, Cicero, the CORE Center, Cottage Grove, Englewood, Logan Square, Near South, Oak Forest, Provident/Sengstacke, Prieto, Robbins, and Woodlawn.

Collectively, the Fresh Truck distributions have resulted in the provision of fresh fruits and vegetables to 25,558 individuals, representing 84,611 household members, totaling more than 525,000 pounds of fresh produce. Most of the individuals benefiting from the Fresh Truck screened positive for food insecurity at a CCH health center visit.

- **CCH Fresh Markets** are offered in the south suburbs. Fresh produce is supplied by Black Oaks Center, a nonprofit that seeks to create a just, holistic, and local food system through education, entrepreneurship, and access to healthy, affordable foods. CCH partners with Experimental Station's Link Up Illinois Link Match program to offer SNAP users with a match on all purchases at CCH Fresh Markets, up to \$20/market/week. CCH Fresh Markets' schedule is listed below:
 - Oak Forest Health Center on Wednesdays, 9am-2pm
 - Robbins Health Center on Thursdays, 11am-3pm
 - Cottage Grove Health Center on Fridays, 9am-2pm
- Three CCH health centers host **Summer Meals** during the months when school is not in session. Children 18 years and younger can get free, healthy meals at the following CCH health centers:
 - Cottage Grove Health Center
Monday-Friday, 12pm-1:15pm
June 10 through August 23 (closed June 7, July 4-5, August 2)
 - Englewood Health Center
Monday-Friday, 11am-12:30pm
June 25 through August 30 (closed July 4)
 - Robbins Health Center
Monday-Friday, 11:30am-12pm
June 24 through August 30 (closed July 4)

Children are not required to be current patients of CCH to access Summer Meals.

IMPACT 2020 Objectives 1.1, 6.2, 6.3, 7.4

Legislative Updates

Local

- On June 27, 2019 Cook County Commissioner Donna Miller introduced a resolution calling on Cook County Health leadership to appear before the Board's Health and Hospitals Committee to respond to Commissioner questions related to the Office of the Independent Inspector General (OIIG) report on CountyCare Finances. The committee meeting was held on June 25, 2019.

State

- The Illinois General Assembly is scheduled to return to Springfield October 28-30 and November 12-14 for the Fall Veto Session. The schedule for the 2020 Spring Session has yet to be announced, but will likely start in mid-January 2020 and run through May 31.
- The Governor has not taken action on SB1321, also referred to as the Medicaid Omnibus Bill, which passed the House and Senate unanimously.

SB1321 intends to address challenges with the state's eligibility system and resulting delays in processing Medicaid applications and redeterminations. The bill also seeks to improve the relationship between providers and Medicaid managed care organizations (MCOs) by requiring HFS to establish a claims dispute resolution process, establishing policies and timelines for MCOs to update provider rosters, and ensuring stakeholder engagement in efforts to improve MCO operations and further develop value-based payment models. The bill goes into effect upon becoming law.

SB1321 was sent to the Governor on June 6. He has 60 days to take action; if no action is taken, the bill automatically becomes law on day 61.

- On July 15, 2019, the Governor signed SB1739 into law. SB1739/Public Act 101-0083 went into effect the day it was signed and makes changes to the Certificate of Need (CON) process overseen by the Illinois Health Facilities and Services Review Board (IHFSRB). As a result, facilities that wish to close must pursue a CON and are no longer allowed to seek an exemption. PA 101-0083 also allows the IHFSRB to defer action on an application to close a facility if there is pending litigation that names the Board as a party or alleges fraud and sets forth requirements for notifying the public and elected officials about proposed closures.
- On July 22, 2019 Governor Pritzker announced 3 new appointees to the Health Facilities and Services Review Board. Below are the appointee biographies from the Governor's [announcement](#).

Sandra Martell will serve on the Health Facilities and Services Review Board.* Dr. Martell has been the Public Health Administrator for Winnebago County Health Department for the past four years. Her current work in Winnebago County has been focused on addressing the health priorities of Maternal and Child Health, Mental/Behavioral Health, and Violence through a lens of health equity. Dr. Martell has spent the majority of her career focused on public health. She worked for the Cook County Department of Public Health in Illinois for over 25 years progressing from the position of public health nurse to interim Chief Operating Officer. She has served as adjunct faculty at both the Loyola University and the University of Illinois. Dr. Martell has been the recipient of the March of Dimes Perinatal Nurse Recognition Award and the Cook County Distinguished Service Award. She has been acknowledged as an emerging public health leader through a fellowship from the National Association of City and County Health Officials/Robert Wood Johnson and De Beaumont Foundations. Dr.

Martell received her BS in Nursing from the Loyola University of Chicago and her master's and doctoral degrees from the UIC with a concentrated focus on public health.

Linda Rae Murray will serve on the Health Facilities and Services Review Board.* Dr. Murray has spent her career serving the medically underserved and is an adjunct assistant professor at the University of Illinois School of Public Health. She most recently practiced as a voluntary general internist at one of the county's health centers until December 2018. Dr. Murray has worked in a variety of settings including practicing Occupational Medicine at a Workers Clinic in Canada, Residency Director for Occupational Medicine at Meharry Medical College, and Bureau Chief for the Chicago Department of Health under Mayor Harold Washington. She worked as medical director of the federally funded health center serving Cabrini Green Public Housing Project in Chicago. She has been an active member of a wide range of local and national organizations including serving as a member of the Board of Scientific Counselors for ATSDR, the Board of Scientific Counselors for NIOSH and the Board of Directors of Trinity Health, a large Catholic Health system. Murray received her MPH, MD and BS from the University of Illinois at Chicago.

Debra Savage will serve on the Health Facilities and Services Review Board.* Since 1990, Savage has been a Registered Nurse practicing in hospitals and home health agencies in Illinois and various other states as a staff nurse, charge nurse, nurse manager, nurse director and clinical application specialist. She has served as a nursing professor and Assistant Dean at Chamberlain University since 2013. In addition, she was an adjunct nursing instructor for Governors State University. Savage is elected as a Will County Regional Office of Education Trustee and is a member of the Exchange Club of Northern Will County, the American Organization of Nursing Leadership and the American Nurses Association as well as the past Section Chair for the Association of Women's Health, Obstetrics & Neonatal Nurses. Savage holds a BS in nursing from Rush University and MS in nursing administration and education from the University of Phoenix.

Federal

- After returning from the July 4 recess, the House plans three weeks of intense work before leaving town on July 26 for the August recess. The Senate plans to work a week longer, leaving on August 2. Large issues remain unresolved including agreement on a budget deal and the increasingly urgent need to lift the debt ceiling. And the conventional wisdom that serious legislating gets more difficult as we near the 2020 elections adds pressure to lawmakers to get things done before going home to face voters in August.

Medicaid DSH Cuts

- On July 11, the House Energy and Commerce Committee Subcommittee on Health marked up 26 bills, including a "health care extenders" package, H.R. 2328, which would extend expiring programs or funding. Representative Joe Kennedy (D-Mass.) offered an amendment which would repeal the reductions to Medicaid disproportionate share hospital (DSH) payments imposed by the ACA for FY 2020 and FY 2021 and reduce the FY 2022 cut to \$4 billion. It is worth noting that the cuts for FY 2020 and FY 2021 would not simply be delayed, or pushed into the out years, but rather repealed or "bought out," though an offset that has not yet been specified.

In addition to delaying the DSH cuts, the amendment included provisions designed to satisfy the objections raised by Republican members against H.R. 3022, the full repeal bill offered by Rep. Eliot Engel (D-N.Y.) at the June subcommittee hearing. The first provision would require CMS to begin making states' Upper Payment Limit (UPL) hospital demonstrations data public, beginning with state FY 2022.

The second provision would require the Comptroller General of the U.S. to report to Congress, within 21 months of enactment, on potential legislation to establish an equitable formula for determining DSH allotments for States. The report must consider the states' (1) level of hospital uncompensated care costs; (2) expenditures for

hospitals, including UPL supplemental payments, and other related payments; and (3) policy decisions that may affect the level of uncompensated care costs (e.g. ACA Medicaid expansion). The committee's Republican leaders spoke in favor of the amendment and it, and the underlying bill, was agreed to by voice vote.

On July 17, the full Energy and Commerce Committee marked up 26 bipartisan bills, including H.R. 2328. Committee leadership proposed an amendment in the nature of a substitute which included provisions to address surprise billing and the Medicaid shortfall in the territories. At the end of the markup, the committee reported the amended H.R. 2328 out favorably to the full House by voice vote, indicating broad bipartisan consensus. It is not yet clear whether the extenders package will get floor time before the August recess.

Senate staff have indicated that the upper chamber is waiting for the House to act. Cook County's Senate delegation supports a DSH cut delay and Democratic leadership have said that it is a priority. The shape of the policy will likely depend on what approach Senate Finance Committee Chairman Chuck Grassley (R-Iowa) decides to do in negotiation with Ranking Member Ron Wyden (D-Ore.). Grassley has said on the record that he supports a delay but wants to see legislative reforms to the statutory formula used to determine state DSH allotments. It remains to be seen if the Government Accounting Office (GAO) report in the House measure will satisfy Grassley on that score. In addition to timing, questions on a legislative vehicle and offsets remain outstanding.

Budget and Appropriations

- Talks between the Administration and congressional leaders in search of an agreement to lift the statutory budget caps under the Budget Control Act of 2011 resumed after the July 4 recess and in the week of July 15 leaders of both parties sounded hopeful that an agreement on the spending caps and debt limit could be reached. If negotiations fail, automatic ten percent across the board cuts, called sequestration, would be imposed next year.
- The House passed a second five bill "minibus" on June 25 so that by the July 4 recess only two regular appropriations bills remained awaiting floor consideration – the controversial Department of Homeland Security bill and the Legislative Branch bill, sidelined over a proposed congressional pay raise.
- Meanwhile, Senate appropriators have still not introduced any of their annual spending bills, waiting for a budget deal to begin marking up bills. This means that at least a short-term continuing resolution (CR) is likely before the end of the fiscal year September 30, to allow the committee to mark up bills and take them to the floor.

Health Care Costs

- On June 26, the Senate Health Education Labor and Pensions (HELP) Committee marked up S.1895, the Lower Health Care Costs Act of 2019. The bill contains provisions designed to address surprise billing, reduce prescription drug prices, promote transparency, improve public health and improve the exchange of health information. The committee reported the bill out favorably to the full Senate, on a 20-3 vote, with Senators Elizabeth Warren, Rand Paul and Bernie Sanders voting no. Senate leaders tried to send the bill to the floor under unanimous consent but a number of Republican senators have placed anonymous holds on the bill, according to press reports. Chairman Alexander is reported to be working with his colleagues to clear the holds.
- The Senate Finance Committee has not yet rolled out a health care cost reduction package for programs in its jurisdiction, including Medicare and Medicaid.

Protection of Medicaid remains a key priority for CCHHS at both the State and Federal level.
